

Scenario Summary

Austin ISD will launch a pilot program for Weighted Student Funding that will allocate district funding based on the number of students and their individual needs using objective, measurable student characteristics. The current allocation system for school-based funding restricts a principal's ability to design programs that best match students' needs. By using a weighted funding formula, AISD will increase funding equity, transparency and flexibility, and will empower principals to design programs that best serve their school communities.

Preparing Our Kids To Succeed By

- ✔ Taking into account the needs of different learners and putting resources where they are needed most.
- ✔ Giving principals greater flexibility to determine the most strategic use of funds to meet students' needs.
- ✔ Allocating resources where they are needed most.
