

AISD Student Climate Survey: Results for Spring 2013 Through 2016

BEDICHEK

Evidence indicates that positive school climate fosters a positive learning environment for students. Also, researchers have documented that a positive school climate helps students from economically disadvantaged schools to beat the odds (Voight, Austin, & Hanson, 2013). This report displays school climate ratings for the past four years, along with the 2016 ratings for all AISD schools at this level. New items were added in 2016 to assess students' social and emotional (SEL) skills.

Survey Results

All

My classmates show respect to each other.

My classmates show respect to other students who are different.

I am happy with the way my classmates treat me.

Students at my school follow the school rules.

I feel safe at my school.
