

Brown Creative Campus Profile

Results for 2016-2017 School Year: Arts Rich

Based on the data provided in the Arts Inventory by the campus principal in the spring of 2017, Brown was found to be an **Arts Rich** campus. Inventory responses and the associated Creative Campus scores are listed below. More information about how the Creative Campus score was calculated can be found on the following page.

What Does it Mean to be an Arts Rich Campus?

Your campus classifies as an arts rich school, and therefore meets the fullest criteria of a Creative Campus. In arts rich schools, nearly all students receive sequential fine arts instruction, more than half of the teachers use creative teaching strategies at least once a week, and community arts partnerships are cultivated both during and after school. To improve, continue supporting teachers to implement creative teaching, develop additional community arts partnerships, communicate regularly with families about the value of creative learning, expand opportunities for students across new art forms, and serve as a demonstration site.

Why does AISD Measure Creative Campus Scores for its campuses?

National research on creative learning shows that students attending arts-rich schools have higher levels of motivation and better academic and social success (Dwyer, 2011). In addition, prior research into the Creative Learning Initiative (CLI) in AISD indicated that the implementation of creative teaching strategies is related to increased levels of student engagement, attendance, greater academic achievement, and social emotional skills (Christian, Hasty, & Wang, 2017). Current AISD findings indicate that 69% of our elementary schools are already Creative Campuses (Figure 1). Because the arts benefit students academically and creatively, AISD, in collaboration with the City of Austin and MINDPOP, is strategically working towards achieving Creative Campuses for all students by 2022-2023 (MINDPOP, 2012).
