About this survey.

The 10th annual Austin Independent School District (AISD) High School Exit Survey was administered online to seniors in every AISD high school during Spring 2012. On each campus, Project ADVANCE facilitators primarily were responsible for ensuring all seniors were given the opportunity to complete the survey. Special education chairs at each campus were tasked with providing eligible special education students with guidance and assistance in completing the survey.

This report contains the results for the AISD Class of 2012 at this campus. Where available, data are presented from previous senior classes and the district.
