

# 2011-2012 AISD Parent Survey Lee Elementary School

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and various school-based opportunities parents would like for their children. The following table provides a summary of the results.
