

Lucy Read Creative Campus Profile

Results for 2016-2017 School Year: Arts Involved

Based on the data provided in the Arts Inventory by the campus principal in the spring of 2017, Lucy Read was found to be an **Arts Involved** campus. Inventory responses and the associated Creative Campus scores are listed below. More information about how the Creative Campus score was calculated can be found on the following page.

Primary average +/- additional components:	3.75
Arts richness score:	Arts Involved

What Does it Mean to be an Arts Involved Campus?

Your campus classifies as an arts involved school, and therefore meets the basic criteria as a Creative Campus. In arts involved schools, the majority of students receive sequential fine arts instruction, many teachers use creative teaching strategies at least once a week, and community arts partnerships are cultivated both during and after school. To improve, support, and encourage all teachers to implement creative teaching, develop new community arts partnerships in additional grade levels both during and after school and communicate more frequently with families about the value of creative learning.

Why does AISD Measure Creative Campus Scores for its campuses?

National research on creative learning shows that students attending arts-rich schools have higher levels of motivation and better academic and social success (Dwyer, 2011). In addition, prior research into the Creative Learning Initiative (CLI) in AISD indicated that the implementation of creative teaching strategies is related to increased levels of student engagement, attendance, greater academic achievement, and social emotional skills (Christian, Hasty, & Wang, 2017). Current AISD findings indicate that 69% of our elementary schools are already Creative Campuses (Figure 1). Because the arts benefit students academically and creatively, AISD, in collaboration with the City of Austin and MINDPOP, is strategically working towards achieving Creative Campuses for all students by 2022-2023 (MINDPOP, 2012).
