

# AISD Student Climate Survey: Results for Spring 2013 Through 2016

#### SIMS

Evidence indicates that positive school climate fosters a positive learning environment for students. Also, researchers have documented that a positive school climate helps students from economically disadvantaged schools to beat the odds (Voight, Austin, & Hanson, 2013). This report displays school climate ratings for the past four years, along with the 2016 ratings for all AISD schools at this level. New items were added in 2016 to assess students' social and emotional (SEL) skills.
